MONTANA PUBLIC SCHOOL ENROLLMENT

Unprecedented enrollment increases

Montana public schools have seen extraordinary enrollment growth since 1990. At the end of the 1980s, all projections indicated that enrollment in Montana would level off at approximately the 1988-89 enrollment of 151,149 students. However, the reality and the projections did not match. The reported 1993-94 fall enrollment is 163,020.

Each year since 1990 the schools have seen enrollment increases ranging from 1,800 to 4,200 students, for a total of 11,871 students in four years, an 8 percent increase. The average number of students enrolled at each high school grade level is 11,526, so the four-year enrollment increase is the equivalent of adding an additional grade level to the school programs.

The additional 11,871 students impact facilities, staffing, supplies, and budgets. As state and local funding decrease and caps are imposed on budgets, districts must struggle with declining resources and increasing needs.

The American Indian students continue to increase as a portion of total student enrollment. In the 1989-90 school year they represented a total of 9.2 percent of student enrollment. In the 1993-94 school year, that total has risen to 9.6 percent of the enrollment.

This enrollment booklet

This booklet is designed for public use and provides detailed public school district enrollment data. The information is provided by county, school, grade and gender. The legal entity code is used to identify a school district. If the legal entity code is repeated, that indicates the district has more than one school. This enrollment booklet does not identify school districts by name, but the Directory of Montana Schools, which provides district information, includes the legal entity after the name of the district (example: Great Falls Elem [0098]).

I hope you find this booklet useful.
